ISO 45001:2018 Occupational Health and Safety management system - Requirements (Summary)
(Published 03/2018)

1. Scope

"This document specifies the requirements for an occupational health and safety (OH&S) management system, and gives guidance for its use, to enable organisations to provide safe and healthy workplaces by preventing work-related injury and ill health, as well as by proactively improving its OH&S performance.

Consistent with the organisation's OH&S policy, the intended outcomes of an OH&S management system include:

- a) continual improvement of OH&S performance
- b) fulfilment of legal requirements and other requirements
- c) achievement of OH&S objectives

This document is applicable to any organization, regardless of size, type and activities. It is applicable to the OH&S risks under the organisation's control, taking into account factors such as the context in which the organisation operates and the needs and expectations of its workers and other interested parties"

2. Normative reference

3. Terms and definitions

The terms and definitions are included in this part of this standard

4. Context of the organisation

- 4.1 Understanding the organisation and its context
